

Open scheduling for COVID-19 vaccine appointments:

Mass General Brigham patients who meet dose-specific criteria can schedule the following COVID vaccine appointments on our website <https://covidvaccine.massgeneralbrigham.org/>:

- First doses
- Third doses for moderately to severely immunocompromised patients (additional information about who qualifies as moderately to severely immunocompromised can be found [here](#))
- Boosters for patients \geq 18 years old who received a second dose of the Pfizer/Moderna vaccine at least 6 months ago (additional information on booster doses can be found [here](#)) OR who received a first dose of J&J/Janssen at least 2 months ago

Please note, **any patient under 16** needs to complete a consent form with a parent or guardian prior to vaccination. The consent form can be found [here](#). **Minors 12-16 years old** may receive the vaccine on their own if they bring a completed consent form.

To begin, navigate to <https://covidvaccine.massgeneralbrigham.org/> and follow the prompts:

Patients will be asked to select a location, confirm eligibility, provide relevant medical history, and then will be able to schedule a vaccine appointment at one of the Mass General Brigham vaccine clinics. Details are as follows:

Select your location:

- For MA or NH residents: choose **“Massachusetts (Mainland)”** or **“New Hampshire”**
- If you live on one of the Islands: choose **“Massachusetts (Islands – Martha’s Vineyard and Nantucket)”**

Please read before proceeding

Welcome to the Mass General Brigham vaccine scheduling site. Please fill out this form to confirm you are eligible to receive a COVID-19 vaccine at this time.

Please select where you would like to schedule your COVID-19 vaccination

Massachusetts (Mainland) or New Hampshire

Massachusetts (Islands - Martha's Vineyard and Nantucket)

Confirm

Confirm that you are a Mass General Brigham patient:

Please read before proceeding

Welcome to the Mass General Brigham vaccine scheduling site.

Have you been seen at least once at a Mass General Brigham site? [Click here to a list of see of Mass General Brigham members and affiliates.](#)

Based on your answers

Currently, our health system is only vaccinating active Mass General Brigham patients. We apologize for the inconvenience.

Visit the [Mass General Brigham COVID-19 Vaccine FAQ](#) here for more information and answers to many questions about COVID-19 vaccines.

Confirm which dose of the COVID-19 vaccine you want to schedule:

- If you select that you want to schedule a third dose or booster of the COVID-19 vaccine, you must confirm that you meet the criteria.
- If you are looking to schedule your second dose of Pfizer or Moderna or if you do not remember which COVID-19 vaccine you received, [please contact the hospital or location where you received your first dose.](#)
- If you have other questions related to receiving additional doses, please see “Do I need additional doses after I am fully vaccinated?” in the [Mass General Brigham COVID-19 FAQ](#).

Confirm Your Eligibility

Which dose of the COVID-19 vaccine would you like to schedule an appointment for?

First dose of the COVID vaccine (patients who are not yet vaccinated)

Third dose of the COVID vaccine (patients who are moderately to severely immunocompromised)

Booster dose of the COVID vaccine

Confirm Your Eligibility:

First Dose:

Confirm Your Eligibility

I attest to the following:

- I am a parent/guardian scheduling for a 5-11 year-old
- I am a parent/guardian scheduling for a 12-17 year-old
- I am a patient who is at least 16 years old

Please read before proceeding

Please complete the COVID-19 Vaccination Informed Consent for patients under 16 located here. You **MUST** bring the signed consent with you to your vaccine visit.

Based on your answers

Based on your answers, you cannot schedule a vaccine.

Visit the Mass General Brigham COVID-19 Vaccine FAQ [here](#) for more information and answers to many questions about COVID-19 vaccines.

Third Doses (for qualified immunocompromised patients):

Confirm Eligibility

Does the patient getting scheduled qualify for a third dose of the COVID vaccine (Pfizer or Moderna) as a moderately to severely immunocompromised patient who meets one or more of the following criteria (for more information click here):

- Actively being treated for cancer
- Received a solid organ transplant and am taking medicine to suppress the immune system
- Received CAR-T cell therapy
- Received a stem cell transplant within the last 2 years or taking medicine to suppress the immune system after a stem cell transplant
- Have moderate or severe primary immunodeficiency (e.g., patients receiving IVIg or SCIG due to an underlying immune deficiency; note: patients with other underlying immune deficiencies not receiving IgG replacement should contact their providers to determine if a third dose is indicated)
- Have advanced or untreated HIV infection (i.e., a CD4 count of less than 200)
- Taking high-dose corticosteroids (i.e., the equivalent of 20 or more milligrams of prednisone a day)
- Receiving other drugs that may suppress the immune response (i.e., tumor-necrosis blockers or other biologic agents that are immunosuppressive or immunomodulatory)

Based on your answers

Based on your answers, you cannot schedule a vaccine.

Visit the Mass General Brigham COVID-19 Vaccine FAQ [here](#) for more information and answers to many questions about COVID-19 vaccines.

Booster Dose:

Confirm You Qualify for a Booster Dose of the COVID Vaccine

I confirm that I am at least 18 years old and qualify for a booster dose of the COVID vaccine as a patient who either:

- Received my 2nd dose of Pfizer OR Moderna at least 6 months ago
- Received my 1st dose of J&J/Janssen at least 2 months ago

Select Your Booster

Select which booster dose of the COVID vaccine you need:

- Pfizer
- Moderna

Does your medical history prevent you from getting vaccinated?

- If you have been diagnosed with COVID-19 in the past 10 days or had close contact with someone with COVID-19 in the last 14 days, you cannot schedule your vaccination until:
 - COVID-19: until you are no longer on isolation
 - COVID-19 exposure: until 14 days have passed since your exposure

! Recent COVID-19 Infection or Exposure?

In the last 10 days were you diagnosed with COVID-19 OR
In the last 14 days were you close contact* with someone else diagnosed with COVID-19?

*Close contact is defined as spending a total of 15 minutes or more within 6 feet of someone currently infected with COVID-19. Healthcare workers wearing appropriate PPE caring for COVID-19 patients are not considered exposed.

Yes No

Based on your answers

Due to your recent COVID-19 infection or exposure, you cannot schedule your COVID-19 vaccination at this time. Please return to this site to schedule when:

1. For COVID-19 infection: You are no longer on isolation.
2. For COVID-19 exposure: At least 14 days have passed since your exposure.

About your allergies:

- If you have a history of a severe allergic reaction from a prior vaccine, injectable, or oral medication containing Polyethylene Glycol aka PEG (e.g. Miralax or Golytely), further review may be needed. If the patient tolerated a previous COVID vaccine well or if the patient was cleared by a physician, you may proceed. If not, you should call the Mass General Hospital Allergy Clinic at 617-726-3850 or the Brigham and Women's Hospital Allergy Clinic at 617-732-9850.

! History of Severe Allergic Reactions?

Do you have a history of a SEVERE allergic reaction (needing emergency treatment) to any of the following:

- Prior vaccine, injectable, or oral medication containing Polyethylene Glycol aka PEG (e.g. Miralax or Golytely)
- Any Other Cause (e.g. other vaccines, injectables, medications, allergens, etc.)
- None of the above

! History of Severe Allergic Reactions?

Did the patient being scheduled tolerate a previous COVID vaccine or get cleared by a physician to proceed with COVID vaccination?

Yes No

Based on your answers

Due to your allergy history you may require a 30-minute observation period in our clinic after your vaccination. You will be asked about your allergy history again at the time of your clinic visit.

Based on your answers

Due to your self-identified allergy, further clinical review is required prior to scheduling your vaccination. Please call the Mass General Hospital Allergy Clinic at  617-726-3850 or Brigham and Women's Hospital Allergy Clinic at  617-732-9850 for next steps.

About your allergies continued:

- If you have a history of a severe allergic reaction from any other cause (e.g. other vaccines, injectable, medications, allergens, etc.), you will be re-asked about your allergy history at check in and may need a 30-min observation period after you receive your vaccine.

History of Severe Allergic Reactions?

Do you have a history of a SEVERE allergic reaction (needing emergency treatment) to any of the following:

- Prior vaccine, injectable, or oral medication containing Polyethylene Glycol aka PEG (e.g. Miralax or Golytely)
- Any Other Cause (e.g. other vaccines, injectables, medications, allergens, etc.)
- None of the above

Confirm

Based on your answers

Due to your allergy history you may require a 30-minute observation period in our clinic after your vaccination. You will be asked about your allergy history again at the time of your clinic visit.

Proceed

- If you have no history of a severe allergic reaction, then you can simply check the last checkbox (“None of the above”) and click “Confirm.”

Select your appointment date and time:

- Select the date, time, and preferred location. To prevent spam, we ask that you confirm you are not a robot. On the next screen, you will see an appointment confirmation. **Please hit continue** to finish scheduling.
